Dear resident

## Re: Upcoming work on Barclay Road Bridge

The M2 Upgrade will widen the existing motorway between Windsor Road, Baulkham Hills and Lane Cove Road, North Ryde and will deliver four new ramps to improve access to the motorway. The project aims to provide efficient and integrated transport for the community of Sydney's North-West. Major work started in January 2011 and is expected to take approximately two years to complete.

The Barclay Road Bridge crosses the Hills M2 Motorway in North Rocks. As part of the upgrade, the northern span of Barclay Road Bridge needs to be lengthened by approximately 4 metres and a new abutment built. This major program of work is expected to take approximately 22 months to complete. Regular updates will be provided to the community as the work progresses.

The northern span of the Barclay Road Bridge will be lengthened in three stages. One traffic lane in each direction will remain open. Pedestrian and cyclist access will be maintained, with diversions in place. The first stage of work will start in the week beginning 21 February and will include:

- Removal of the kerb on the eastern side of the bridge to accommodate temporary changes to traffic arrangements.
- New line markings and the installation of traffic barriers to create a safe construction area. Traffic management on Barclay Road will extend into Renown Road.
- Minor demolition and excavation work.
- Core drilling and piling.
- Modification of the pedestrian bus ramp to the M2 bus stop.
- Concrete works and road surface improvements.

Standard construction hours of work are from 7am to 6pm Monday to Friday and from 8am to 1pm on Saturdays.

Some of this work needs to be done at night when lanes can be closed on the M2 Motorway. This is to avoid the risk of objects and materials falling onto the traffic below Barclay Road Bridge.

This night work is subject to approval. You may experience increased noise as a result of this work; however the project team will attempt to keep this to a minimum. A separate notification will be provided to potentially affected residents with dates and details at least seven days prior to the start of any night work. All work is subject to weather and construction conditions.

The community information line 1800 196 266 will be attending during the day and night during construction. Complaints will be responded to within two hours and investigation of the complaint will proceed at the earliest opportunity. If you have any questions or would like to provide feedback please contact the project team on 1800 196 266 or email [enquiries@hillsm2upgrade.com.au](mailto:enquiries@hillsm2upgrade.com.au).

Kind regards

M2 Upgrade Community Relations Team
