

21 April 2011

Our reference: N0088

Dear resident,

Night work: temporary noise wall construction west of Barclay Road Bridge commencing 2 May

The Hills M2 Upgrade will widen the existing motorway between Windsor Road, Baulkham Hills and Lane Cove Road, North Ryde and will deliver four new ramps to improve access to the motorway. We aim to provide an efficient and integrated transport for the community of Sydney's North-West. Major work started in January 2011 and is expected to take around two years to complete.

A temporary noise wall will be constructed, extending 280m west of Barclay Road Bridge on the eastbound carriageway of the motorway.

This work involves lane closures of the motorway and will be undertaken at night when traffic volumes are low. The motorway will remain open during these works. Approved hours of night works are from 8pm to 5am. Night work will take place on the dates shown over the page.

The following equipment will be used:

- Light vehicles
- Small tools and generators
- Lights

You may experience increased noise levels during this work. We will take measures to keep this to a minimum, including:

- Using non-tonal reversing alarms, which make a "quacking" sound instead of a "beeping" sound.
- Shrouding all stationary equipment and using hoarding where possible.

For more information about how we will manage noise, please refer to the *M2 Upgrade Noise Management Fact Sheet* which is available on the project website www.hillsm2upgrade.com.au

What is happening with the noise wall at this location?

1. A new temporary noise wall will be built in sections on the eastbound carriageway. The temporary noise wall will be located on the motorway side of the existing noise wall. Please note that the temporary noise wall will not be located in the same position as the permanent noise wall.
2. As each temporary section of the noise wall is completed, the corresponding section of the existing noise wall will be removed.
3. The new permanent noise wall will be constructed around August 2012 following the completion of widening work near Barclay Road Bridge. The new permanent noise wall will be between 3.6m – 4.2m in height at this location and be closer to properties but still within the motorway boundary.

Why can't the new permanent noise wall be constructed now?

The new permanent noise wall at this location cannot be built until construction of a new retaining wall and

Hills M2 Upgrade
breakdown safety

In the case of breakdown:

- Stay in your vehicle
- Switch on your hazard lights
- Call **1800 196 266**
- Wait for assistance

associated earthworks are complete. The new noise wall will sit on top of the new retaining wall.

The community complaints and information line 1800 196 266 will be attended day and night during construction. Complaints received will be responded to within two hours and we will investigate the complaint as soon as possible. If you have any questions or would like to provide feedback please contact us on the 1800 number or email enquiries@hillsm2upgrade.com.au.

Kind regards

Sanjin Muhic
Hills M2 Upgrade Community Relations Manager
