17 February 2011

Dear resident,

Re: Beecroft Road Bridge area and bus ramp

The M2 Upgrade will widen the existing motorway between Windsor Road, Baulkham Hills and Lane Cove Road, North Ryde and will deliver four new ramps to improve access to the motorway. Major work started January 2011 and is expected to take approximately two years to complete.

As part of the upgrade, Beecroft Road Bridge needs to be converted from a three span bridge to a two span bridge. This will be done by increasing the length and capacity of existing beams, and replacing the existing piers with new piers. This work will allow the motorway to be widened in the area where the median bus ramp and bus lane are located. This major program of work is expected to take approximately 18 months to complete.

In the week beginning 21 February work will start on the east and westbound shoulders of the M2 carriageway underneath the Beecroft Road Bridge and on the recently closed bus ramp. This includes establishment of the work area, setting up of scaffolding, saw cutting and excavation of material. Concrete work to create the new piers and beams will follow. Hours of work are from 7am to 6pm Monday to Friday and 8am to 1pm on Saturdays. At times, there will be night work at this site due to safety and access reasons.

Lane closures on Beecroft Road will be required to carry out investigations of the deck and to prepare for structural work. This work will be undertaken at night outside of peak periods when traffic volumes are lower. Noise screens will be used around equipment wherever possible to reduce noise. A notification will be provided at least seven days prior to the start of night works.

You may experience increased noise as a result of this work; however the project team will attempt to keep this to a minimum. All work is subject to weather and construction conditions.

The community information line 1800 196 266 will be attended during the day and night during construction. Complaints received via the 1800 number will be responded to within two hours and investigation of the complaint will proceed at the earliest opportunity. If you have any questions or would like to provide feedback please contact the project team on the 1800 number 1800 196 266 or email enquiries@hillsm2upgrade.com.au.

Kind regards

M2 Upgrade Community Relations Team
