1 July 2011

Dear resident,

**Re: Proposed weekend night work and partial lane closures on Beecroft Road Bridge, Beecroft scheduled to commence 8 July**

The Hills M2 Upgrade will widen the existing motorway between Windsor Road, Baulkham Hills and Lane Cove Road, North Ryde and will deliver four new ramps to improve access to the motorway. The project aims to provide efficient and integrated transport for the community of Sydney's North-West. Major work started in January 2011 and is expected to take approximately two years to complete.

The M2 Motorway will be widened by one lane in each direction underneath Beecroft Road Bridge. To facilitate widening at this location, modifications will be made to the concrete piers that support the bridge.

**Key activities at this location**

Workers, trucks and equipment will be located on the southbound lanes on Beecroft Road Bridge and also underneath the bridge in the median (former bus ramp) on the M2 Motorway. Concrete pouring work will be undertaken over four consecutive weekends from 8pm on Friday to noon on Saturday (weather permitting). Please refer to the table and map attached for further details.

Please note that this work is subject to obtaining approval for the traffic management arrangements.

**Proposed traffic management arrangements and reduced speed limits**

The southbound lanes on Beecroft Road Bridge will be closed from 8pm on Friday to noon on Saturday and traffic will be diverted to the northbound lane. Traffic in both directions will use the northbound lane under a contra-flow arrangement. Please note that a reduced speed limit of 40km/h will be in place from **8pm on Friday to 5am on Monday**. The reduced speed limit is being extended after work finishes at noon on Saturday to reduce the effect of vibration and to assist the newly poured concrete to cure.

Machinery and equipment used includes lights, concrete delivery trucks, concrete pumps, light vehicles and hand tools. You may experience increased noise levels as a result of this work. We will take measures to keep this to a minimum, including:

- Using non-tonal reversing alarms, which make a "quacking" sound instead of a "beeping" sound.
- Shrouding all stationary equipment and using hoarding where possible.

For further information about how the project team will manage noise, please refer to the M2 Upgrade Noise Management Fact Sheet which is available on the project website [www.hillsm2upgrade.com.au](http://www.hillsm2upgrade.com.au)

The **community complaint and information line 1800 196 266** will be attended 24 hours per day, 7 days per week during construction. Complaints will be responded to within two hours and investigation of the complaint will proceed at the earliest opportunity. If you have any questions or would like to provide feedback please contact the project team on the 1800 number or email [enquiries@hillsm2upgrade.com.au](mailto:enquiries@hillsm2upgrade.com.au).

Kind regards,

Sanjin Muhic

Hills M2 Upgrade Community Relations Team
