PLEASE NOTE ADDITIONAL NIGHT WORK DATES

Traffic management – Updated night work notification: February 2011

Dear Resident,

The M2 Upgrade will widen the existing motorway between Windsor Road, Baulkham Hills and Lane Cove Road, North Ryde and will deliver four new ramps to improve access to the motorway. The project aims to provide efficient and integrated transport for the North-West Sydney community. Major work to commenced in early 2011 and will take approximately two years to complete.

The M2 Motorway is an important part of the overall Sydney road and transport network. This means that the motorway must still operate during construction. This requires some traffic management works to be completed outside of normal construction hours, as follows:

- Temporary pavement is to be built at each end of the Barclay Road bus stop on the M2. This work has been approved by the Department of the Environment Climate Change and Water (DECCW) to be carried out at night.

Weather permitting, this work will take place on the dates shown over the page. Hours of work are from 8 pm until 5.30 am. Machinery and equipment used will include lights, generator, saw cutting machine, excavator, tipper trucks, water tankers, road sweeper, roller, asphalt paving machine, core drill, and delivery trucks.

You may experience increased noise levels as a result of this work. The project team will take several measures to keep this to a minimum, including:

- using non-tonal reversing alarms;
- shrouding all stationary equipment; and
- completing saw-cutting before 1am and pavement breaking before 2am, except if it is unsafe to leave the pavement in the state it is in at that time.

Project team members will also periodically monitor the noise from construction activities at nearby residences during night work.

The information/complaints line 1800 196 266 will be attended during the day and night during construction. Complaints received via the 1800 number will be responded to within two hours and investigation of the complaint will proceed at the earliest opportunity.

If you have a question or would like to provide feedback please contact the project team on the project number 1800 196 266 or email enquiries@hillsm2upgrade.com.au

Kind regards
M2 Upgrade Community Relations Team
