

M2 Upgrade

Work Notification

07 February 2011

REF NO: CHI6100_07.02.2011_CRB_I

Dear resident,

Re: Construction at Christie Road Bridge

The M2 Upgrade will widen the existing motorway generally between Windsor Road, Baulkham Hills and Lane Cove Road, North Ryde and will deliver four new ramps to improve access to the motorway. The project aims to provide efficient and integrated transport for the community of Sydney's North-West. Major work on the upgrade started in January 2011 and is expected to take approximately two years to complete.

Work on Christie Road Bridge is scheduled to start in the week beginning 14 February. The bridge will be lengthened to the south and widened to the west from three lanes to five lanes and will provide a new eastbound on ramp to the motorway.

Before this work can commence there will be a number of traffic changes on the motorway, underneath the Christie Road Bridge, including:

- Partial closure of the fast lane westbound between 7am – 3pm.
- Installation of concrete barriers around the central pier area.
- Demolition of existing central median barrier,
- Speed reductions on the M2 in the vicinity of Christie Road from 80km/h to 60km/h in both directions. Follow signs indicating changes.

Work on the Christie Road Bridge will be ongoing for the duration of the project and include:

- Establishment of traffic management with partial closure of one northbound lane – two way traffic will be maintained using the remaining existing two lanes,
- Installation of piles and concreting works.

The work will be noisy at times, both on and under Christie Road Bridge, and include the use of:

- Jack hammers and concrete saws.
- Excavator mounted road breaker.
- Coring and piling rigs.
- Concrete equipment such as pumps and compactors.

Work will be undertaken during standard construction hours, Monday to Friday from 7am to 6pm and Saturday from 8am to 1pm. At times, work outside these standard hours will be required due to safety and access reasons. A separate notification will be provided to potentially affected residents with dates and details prior to the start of any night work.

A fact sheet is attached with further information about work in this area. If you have any further enquiries, please contact the project team on 1800 196 266 or email enquiries@hillsm2upgrade.com.au.

Kind regards

M2 Upgrade Community Relations Team
