

# M2 Upgrade

## Work Notification

Our reference: - Central Zone Devlins Creek noise wall AN\_1

11 February 2011

Dear Sir/Madam,

**Re: Devlins Creek Bridge – changes to noise walls**

The M2 Upgrade will widen the existing motorway generally between Windsor Road, Baulkham Hills and Lane Cove Road, North Ryde and will deliver four new ramps to improve access to the motorway. The project aims to provide efficient and integrated transport for the community of Sydney's North-West.

Major work on the M2 commenced in January 2011 and is expected to take approximately two years to complete.

As part of the upgrade, Devlins Creek Bridge will be widened. Establishment of access to the Devlins Creek Bridge work area will commence in the week beginning 21 February 2011. In order to access the work area, it will be necessary to remove two sections of the existing noise walls on the eastbound and westbound carriageways near Devlins Creek Bridge.

Temporary noise wall gates will be constructed to replace the sections of noise wall removed. The noise wall gates will be open during the daytime working hours and closed at night. It is anticipated that there will be no additional noise impacts to the surrounding residents when the temporary gates are closed.

The work to install the new noise wall gates will take up to two weeks to complete. This work will be carried out during the day and is not expected to significantly affect the surrounding residents.

Future changes to the existing noise walls as part of Devlins Creek Bridge work will be required. Potentially affected residents will be notified in advance of any future change.

If you have any questions please contact the project team on 1800 196 266 or email [enquiries@hillsm2upgrade.com.au](mailto:enquiries@hillsm2upgrade.com.au)

Kind regards

M2 Upgrade Community Relations Team
