7 March 2011

Dear resident,

Re: Set up of Devlins Creek compound and Devlins Creek bridgeworks

The Hills M2 Upgrade will widen the existing motorway generally between Windsor Road, Baulkham Hills and Lane Cove Road, North Ryde and will deliver four new ramps to improve access to the motorway. The project aims to provide efficient and integrated transport for the community of Sydney's North-West.

Major work started in January 2011 and is expected to take around two years to complete.

Devlins Creek compound site establishment

The set up of the Devlins Creek work area will start in the week beginning 14 March. Work to set the site up will be undertaken during standard construction hours, Monday to Friday from 7am to 6pm and Saturday from 8am to 1pm.

Work to set up the site will include:

- Erecting safety fences.
- Installation of sediment controls.
- Tree clearing and earthworks to establish compound area.
- Excavation to establish access roads.
- Installation of services and lighting.
- Setting up of temporary office buildings as part of a small compound.

The site will be used for the duration of the project to support the construction work to widen Devlins Creek Bridge. The compound will include storage of equipment and materials, work sheds and site amenities. The site compound will be accessed from the M2 Motorway. At times, this site will be in use 24 hours per day, 7 days per week.

Important information about access to public walking tracks

The public walking tracks underneath Devlins Creek Bridge will be closed for safety reasons when construction activities are being undertaken. Outside of normal construction hours and on public holidays, safety conditions permitting, a track will be re-opened for public use. Signs will be installed to indicate when the tracks are closed. Please see the map over for the suggested detour.

Devlins Creek bridgeworks

As part of the upgrade, Devlins Creek Bridge will be widening to provide one extra lane in each direction. The current lane arrangement of two general traffic lanes and a bus lane in each direction will be maintained during peak traffic periods.

**Hills M2 Upgrade
breakdown safety**

In the case of breakdown:

- Stay in your vehicle
- Switch on your hazard lights
- Call 1800 196 266
- Wait for assistance

M2 Upgrade

Construction work on the bridge will begin 14 March 2011 and include:

- Traffic management.
- Excavation work.
- Piling work.
- Concrete pours.
- Demolition work.
- Erection of steel work.
- Crane lifts.

This work is expected to take approximately two years to complete. Most of the work will be undertaken during standard construction hours, Monday to Friday from 7am to 6pm and Saturday from 8am to 1pm. However, due to safety reasons and high traffic volumes on the bridge, approval is being sought to carry out some of the work at this location at night. A separate notification will be provided to nearby residents with dates and details prior to the start of any night work.

The community information line 1800 196 266 will be attended during the day and night during construction. Complaints received will be responded to within two hours and investigation of the complaint will proceed at the earliest opportunity. If you have any questions or would like to provide feedback please contact the project team on the 1800 number or email enquiries@hillsm2upgrade.com.au.

Kind regards

Sanjin Muhic
