

Eastbound bus lane changes

As part of the Hills M2 Upgrade, the existing Hills M2 eastbound bus lane will be shortened by approximately 700 metres and terminate just west of Murray Farm Road Bridge from **2 November 2011** – refer to the map over.

This will fast track construction work under Murray Farm Road Bridge and allow the new permanent westbound bus lane to be reinstated approximately 3 months ahead of schedule.

For further information about bus services on the Hills M2 Motorway contact NSW Transport Infoline on **131 500**. For more information regarding the Hills M2 Upgrade, call **1800 196 266** (select option 2) or visit www.hillsm2upgrade.com.au.
