

Eastbound bus lane changes

As part of the Hills M2 Upgrade, the eastbound bus lane on the motorway will be temporarily shortened by approximately 700 metres. From **Tuesday 6 March 2012** the bus lane will terminate just west of the Devlins Creek Bridge, see map over.

Temporarily shortening the eastbound bus lane will fast track construction work at Devlins Creek Bridge and allow the new permanent westbound bus lane to be reinstated approximately 3 months ahead of schedule.

For further information about bus services on the Hills M2 Motorway contact Transport Info on **131 500**. For more information regarding the Hills M2 Upgrade, call **1800 196 266** (select option 2) or visit www.hillsm2upgrade.com.au.
