

Hills M2 Upgrade Murray Farm Road Bridge changed traffic conditions

Major work on the upgrade started in January 2011 and is expected to take approximately two years to complete.

From 3 August, traffic conditions on **Murray Farm Road Bridge, Beecroft** will change.

The through traffic lane will switch from the western side of the bridge to the eastern side of the bridge. Traffic signals will alternate the flow of traffic.

Please follow the signs and drive carefully. The Hills M2 Upgrade team appreciates your patience and apologises for any inconvenience.

For up-to-date traffic information visit:
