

## Hills M2 Upgrade Murray Farm Road Bridge changed traffic conditions

Major work on the upgrade started in January 2011 and is expected to take approximately two years to complete.

From 21 March, there will be changed traffic conditions on **Murray Farm Road Bridge, Beecroft.**

Traffic across the bridge will be reduced to **one lane**. Traffic signals will alternate the flow of traffic. Motorists can expect delays, particularly in peak periods.

Signs will be in place to notify motorists of the changed conditions. Thank you for your patience. Please drive carefully and follow the signs.
