Dear resident,

Re: Relocation of existing noise wall on the M2 west of Barclay Road, North Rocks

The Hills M2 Upgrade will widen the existing motorway generally between Windsor Road, Baulkham Hills and Lane Cove Road, North Ryde and will deliver four new ramps to improve access to the motorway. The project aims to provide efficient and integrated transport for the community of Sydney's North-West.

As part of the upgrade, an existing noise wall along the eastbound carriageway of the motorway west of Barclay Road for a length of approximately 130m will be relocated (see map over).

This work involves removing the existing noise wall and constructing a new permanent noise wall approximately 0.5 metres closer to the residents of Barclay Road. The existing noise wall will be removed in sections and replaced with the new wall within five days. This means there may be gaps in the noise wall coverage for up to five days. Residents may experience increases in noise during this period. We apologise for any inconvenience caused.

This work will start on Thursday 1 September and take approximately 4-6 weeks to complete. The new noise wall will be 4.8m in height and made of similar material to the existing noise wall.

Work will be undertaken during standard construction hours, Monday to Friday from 7am to 6pm and Saturday from 8am to 1pm.

The community complaints and information line 1800 196 266 (select option 2) will be attended day and night during construction. Complaints received will be responded to within two hours and investigation of the complaint will proceed at the earliest opportunity. If you have any questions or would like to provide feedback please contact the project team on the 1800 number or email enquiries@hillsm2upgrade.com.au.

Kind regards

Sanjin Muhic
Hills M2 Upgrade Community Relations Manager
