Dear resident,

PLEASE NOTE CHANGE OF WORK DATES

Re: Night work on the M2 Motorway to remove excavated material between Oakes Road and Barclay Road, North Rocks

The Hills M2 Upgrade will widen the existing motorway between Windsor Road, Baulkham Hills and Lane Cove Road, North Ryde and will deliver four new ramps to improve access to the motorway. The project aims to provide efficient and integrated transport for the community of Sydney's North-West. Major work started in January 2011 and is expected to take approximately two years to complete.

Work is currently underway to widen the motorway between Oakes Road and Barclay Road. Due to space restrictions, removal of excavated rock material from the construction site along this section of the westbound carriageway needs to be undertaken at night at two locations, as shown on the map over the page.

This activity will be carried out in blocks of two nights on the dates shown over the page. This work will be undertaken at night between 8pm and 5:30am when traffic volumes on the motorway are lower. The westbound carriageway will be closed during this work and traffic will be diverted to the eastbound carriageway under a contra flow arrangement. There will be reduced speed limits in place during this work.

Machinery and equipment used includes trucks, excavators and lighting towers. You may experience increased noise levels as a result of the work. The project team will take measures to keep this to a minimum, including:

- Using non-tonal reversing alarms, which make a "quacking" sound instead of a "beeping" sound.
- Shrouding all stationary equipment and using hoarding where possible.

For more information about how we will manage noise, please refer to the M2 Upgrade Noise Management Fact Sheet which is available on the project website www.hillsm2upgrade.com.au

The community complaints and information line 1800 196 266 will be attended day and night during construction. Complaints will be responded to within two hours and investigation of the complaint will proceed at the earliest opportunity. If you have any questions or would like to provide feedback please contact the project team on the 1800 number or email enquiries@hillsm2upgrade.com.au.

Regards

Sanjin Muhic
