

Hills M2 Upgrade

Hills M2

6 January 2012

Our Reference: N0277

Dear resident,

Re: Night work on Devlins Creek Bridge Beecroft, starting 13 January 2012

Significant progress has been made on the Hills M2 Upgrade since major work started in January 2011. The project will reduce congestion and travel times during the busy morning and afternoon periods and improve access to the motorway. The upgrade will be completed in the first half of 2013.

As part of the Devlins Creek Bridge widening, the existing concrete barriers on the bridge median will be removed. This work will be undertaken at night from 8pm to 5am when traffic volumes on the motorway are lower. The work will be carried out on the dates shown over the page, weather permitting.

Work activities

Machinery and equipment used will include a crane, hydraulic jacks, lighting towers and hand tools. You may experience increased noise levels as a result of the work. The project team will take measures to keep this to a minimum, including using non-tonal reversing alarms, which make a “quacking” sound instead of a “beeping” sound.

For more information about how the project team will manage noise, please refer to the *Hills M2 Upgrade Noise Management Fact Sheet* available on the project website www.hillsm2upgrade.com.au.

Traffic arrangements

The bus lane and fast lane on the eastbound carriageway of the motorway will be temporarily closed at this location during the work. Speed limits will be reduced to 40 kph. Please follow the signs and drive with care.

The community complaints and information line 1800 196 266 (select option 2) will be attended 24 hours per day, 7 days per week during construction. Complaints will be responded to within two hours and investigation of the complaint will proceed at the earliest opportunity.

If you have any questions or would like to provide feedback please contact the project team on the 1800 number or email enquiries@hillsm2upgrade.com.au.

Regards

Sanjin Muhic
Hills M2 Upgrade Community Relations Manager
