30 January 2012

Dear resident,

Re: Night work on the Hills M2 underneath Murray Farm Road Bridge at Beecroft, commencing 6 February 2012

Significant progress has been made on the Hills M2 Upgrade since work started in January 2011. The project will reduce congestion and travel times during the busy morning and afternoon periods and improve access to the motorway. The upgrade will be completed in the first half of 2013.

As part of the Murray Farm Road Bridge widening and lengthening work, steel reinforcement will be installed underneath the bridge. This work will be undertaken at night between **8pm and 5am** when traffic volumes on the motorway are lower. Please refer to the dates and work location shown over the page.

Work activities

Machinery and equipment needed for this work includes lights, hand tools, generators and two cranes. You may experience increased noise levels as a result of this work. We will take measures to keep this to a minimum, including:

- Using non-tonal reversing alarms, which make a “quacking” sound instead of a “beeping” sound.

For further information about how the project team will manage noise, please refer to the *Hills M2 Upgrade Noise Management Fact Sheet* which is available on the project website www.hillsm2upgrade.com.au.

Traffic arrangements

During this work, traffic will be diverted to the opposite carriageway under a contra flow arrangement will be in place. Speed limits will be reduced to 40 kph in the contra-flow area. Please drive carefully and follow the signs.

The community complaints and information line 1800 196 266 (option 2) will be attended day and night during construction. Complaints will be responded to within two hours and an investigation of the complaint will proceed at the earliest opportunity. If you have any questions or would like to provide feedback please contact the project team on the 1800 number or email enquiries@hillsm2upgrade.com.au.

Kind regards

Sanjin Muhic

Hills M2 Upgrade Community Relations Manager
