Dear resident,

Please note date change

Re: Night work to pour the new deck at Terrys Creek Bridge, North Epping on 11 January 2012

Significant progress has been made on the Hills M2 Upgrade since work started in January 2011. The project will reduce congestion and travel times during the busy morning and afternoon periods and improve access to the motorway. The upgrade is scheduled for completion in the first half of 2013.

As part of the widening of Terrys Creek Bridge, the new concrete deck along the eastbound carriageway of the motorway will be poured 11 January 2012. This work will be undertaken at night from 8pm to 5am when traffic volumes are lower.

Please refer to the table and map attached for further details.

Work Activities

Machinery and equipment used will include concrete pumps and trucks, vibrators, hammers, saws, light vehicles, lighting towers, hand tools and small generators. You may experience increased noise levels as a result of the work. The project team will take measures to keep this to a minimum, including:

- Completing hammering and saw cutting by midnight.
- Using non-tonal reversing alarms, which make a “quacking” sound instead of a “beeping” sound.
- Shrouding all stationary equipment and using hoarding where possible.

For more information about how we will manage noise, please refer to the *Hills M2 Upgrade Noise Management Fact Sheet* which is available on the project website www.hillsm2upgrade.com.au.

Traffic Arrangements

During this work citybound traffic will be diverted onto the westbound carriageway under contra-flow arrangement. Speed limits will be reduced to 40 kph in the contra-flow area.

The community complaints and information line 1800 196 266 (select option 2) will be attended 24 hours per day, 7 days per week during construction. Complaints will be responded to within two hours and investigation of the complaint will proceed at the earliest opportunity.

If you have any questions or would like to provide feedback please contact the project team on the 1800 number or email enquiries@hillsm2upgrade.com.au.

Regards

Sanjin Muhic
Hills M2 Upgrade Community Relations Manager
