

1 December 2011

Our reference: N0247

Dear resident,

Re: Relocation of existing noise wall on the Hills M2 eastbound between Kent Street and Beecroft Road, Beecroft commencing 8 December.

The Hills M2 Upgrade will widen the existing motorway generally between Windsor Road, Baulkham Hills and Lane Cove Road, North Ryde and will deliver four new ramps to improve access to the motorway. The project aims to provide efficient and integrated transport for the community of Sydney's North-West.

As part of the upgrade, a 58 metre section of existing noise wall along the citybound carriageway of the motorway between Kent Street and Beecroft Road, Beecroft will be rebuilt approximately 1 metre closer to the residences (see the map over).

The existing noise wall will be removed section by section as the new permanent noise wall is built. To create access space for the new noise wall to be built, there will be a 6 metre gap in noise wall coverage for the duration of the work. At night the gap will be closed with a temporary panel to reduce traffic noise impacts. Residents may experience an increase in traffic noise during this period. We apologise for any inconvenience caused.

This work is scheduled to start on Thursday 8 December and will take approximately three weeks to complete. The new noise wall will be the same height as the existing noise wall (4.8m high) and made of similar material.

Work will be undertaken during standard construction hours, Monday to Friday from 7am to 6pm and Saturday from 8am to 1pm.

The community complaints and information line 1800 196 266 (select option 2) will be attended day and night during construction. Complaints received will be responded to within two hours and investigation of the complaint will proceed at the earliest opportunity. If you have any questions or would like to provide feedback please contact the project team on the 1800 number or email enquiries@hillsm2upgrade.com.au.

Kind regards

Sanjin Muhic
Hills M2 Upgrade Community Relations Manager
