Dear resident,

Re: Night work for Service Relocation on Talavera Road, Macquarie Park 19-20 September

The Hills M2 Upgrade will widen the existing motorway between Windsor Road, Baulkham Hills and Lane Cove Road, North Ryde and will deliver four new ramps to improve access to the motorway. The project aims to provide efficient and integrated transport for the community of Sydney's North-West. Major work started in January 2011 and is expected to take approximately two years to complete.

As part of the upgrade, Talavera Road will be widened on the northern side between the Graduate School of Management driveway (140 metres west of Christie Road) and Alma Road. This work involves installing new utility service crossings along Talavera Road and at the Talavera Road intersections with Herring Road and Christie Road. This work will take place at night from 7pm to 5.30am when traffic volumes are low.

Work activities

The utility service crossing work will take place over two nights on the dates shown over the page, weather permitting. The machinery and equipment used for this work includes concrete saws, excavator, jack hammers, plate compactor, light vehicles, lighting towers and hand tools. You may experience increased noise levels as a result of the work. The project team will take measures to keep this to a minimum, including:

- Completing saw cutting and jack hammering by 10pm
- Using non-tonal reversing alarms, which make a "quacking" sound instead of a "beeping" sound.
- Shrouding all stationary equipment and using hoarding where possible.

For more information about how we will manage noise, please refer to the Hills M2 Upgrade Noise Management Fact Sheet which is available on the project website www.hillsm2upgrade.com.au.

Traffic arrangements

Traffic along Talavera Road will be reduced to one lane operating in alternate directions. Traffic controllers will manage traffic flow during the work. Speed reductions will be in place, please follow the signs and drive with care.

The community complaints and information line 1800 196 266 (select option 2) is attended 24 hours per day, 7 days per week during construction. Complaints will be responded to within two hours and investigation of the complaint will proceed at the earliest opportunity.

If you have any questions or would like to provide feedback please contact the project team on the 1800 number or email enquiries@hillsm2upgrade.com.au.

Regards

Sanjin Muhic
Hills M2 Upgrade Community Relations Manager
