Dear resident,

Re: Night work to install bridge beams at Terrys Creek Bridge, North Epping commencing 14 October

The Hills M2 Upgrade will widen the existing motorway between Windsor Road, Baulkham Hills and Lane Cove Road, North Ryde and will deliver four new ramps to improve access to the motorway. The project aims to provide efficient and integrated transport for the community of Sydney's North-West. Major work started in January 2011 and is expected to take approximately two years to complete.

As part of the Terrys Creek Bridge widening, concrete bridge beams will be delivered and installed next to the eastbound carriageway of the motorway over five Friday nights commencing 22 July. Due to the high volume of traffic during the day this work will be undertaken at night between 8pm and 5.30am. Please refer to the table and map attached for further details.

Work activities will include:

- Full closure of the eastbound carriageway of the motorway to allow delivery of the beams. Traffic will be maintained in both directions under a contra flow arrangement on the westbound carriageway
- Temporary removal of some existing noise wall panels on the bridge while the beams are being lowered and installed.
- Installation of beams from the existing bridge deck onto newly constructed bridge piers

Machinery and equipment used will include two 350 tonne cranes on the deck of the Terrys Creek Bridge, trucks, light vehicles, lighting towers, hand tools and an elevated work platform. You may experience increased noise levels as a result of the work. The project team will take measures to keep this to a minimum, including:

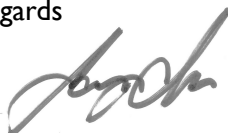

- Using non-tonal reversing alarms, which make a "quacking" sound instead of a "beeping" sound.
- Shrouding all stationary equipment and using hoarding where possible.

For more information about how we will manage noise, please refer to the M2 Upgrade Noise Management Fact Sheet which is available on the project website www.hillsm2upgrade.com.au.

The community complaints and information line 1800 196 266 will be attended 24 hours per day, 7 days per week during construction. Complaints will be responded to within two hours and investigation of the complaint will proceed at the earliest opportunity.

If you have any questions or would like to provide feedback please contact the project team on the 1800 number or email enquiries@hillsm2upgrade.com.au.

Regards

Sanjin Muhic
Hills M2 Upgrade Community Relations Manager
