

01 March 2011

Our reference: Ch: 3200-4200_01.03.11_AN_1

Please note date changes

Dear resident,

Traffic management - Night work notification: February 2011

The Hills M2 Upgrade will widen the existing motorway between Windsor Road, Baulkham Hills and Lane Cove Road, North Ryde and will deliver four new ramps to improve access to the motorway. The project aims to provide efficient and integrated transport for the North-West Sydney community. Major work has commenced and will take approximately two years to complete.

The M2 Motorway is an important part of the overall Sydney road and transport network. This means that the motorway must still operate during construction. This requires some traffic management works to be completed outside of normal construction hours, as follows:

- Installation of concrete traffic barriers and new line marking.

Weather permitting, this work will take place on the dates shown over the page. Hours of work are from 8 pm until 5.30 am. Machinery and equipment used will include lights, generator, saw cutting machine, excavator, tipper trucks, water tankers, road sweeper, roller, asphalt paving machine, core drill, and delivery trucks.

You may experience increased noise levels as a result of this work. The project team will take several measures to keep this to a minimum, including:

- using non-tonal reversing alarms;
- shrouding all stationary equipment; and
- completing saw-cutting before 1am and pavement breaking before 2am, except if it is unsafe to leave the pavement in the state it is in at that time

Project team members will also periodically monitor the noise from construction activities at nearby residences during night work.

For further information about how the project team will manage noise, please refer to the *M2 Upgrade Noise Management Fact Sheet* which is available on the project website www.hillm2upgrade.com.au

The community information line 1800 196 266 will be attended during the day and night during construction. Complaints received via the 1800 number will be responded to within two hours and investigation of the complaint will proceed at the earliest opportunity. If you have any questions or would like to provide feedback please contact the project team on the 1800 number or email enquiries@hillsm2upgrade.com.au.

Kind regards

Sanjin Muhic

Hills M2 Upgrade Community Relations Manager

**Hills M2 Upgrade
breakdown safety**

In the case of breakdown:

- Stay in your vehicle
- Switch on your hazard lights
- Call **1800 196 266**
