19 August 2011

Dear resident,

**Re: Traffic management changes on Murray Farm Road Bridge, Beecroft commencing 26 August**

The Hills M2 Upgrade will widen the existing motorway between Windsor Road, Baulkham Hills and Lane Cove Road, North Ryde and will deliver four new ramps to improve access to the motorway. The project aims to provide efficient and integrated transport for the community of Sydney's North-West. Major work started in January 2011 and is expected to take around two years to complete.

As part of the Hills M2 Upgrade, Murray Farm Road Bridge (also known as Kirkham Street Bridge) will be lengthened by approximately 8 metres on the northern side. To accommodate this work, traffic on the bridge was reduced to one lane in alternating directions using signalised traffic control at both ends of the bridge.

From 26 August 2011, the through traffic lane will switch from the western side of the bridge to the eastern side of the bridge. This will allow the next stage of construction to commence.

The switch will occur between 9.30am and 3pm. During the switch, traffic controllers will direct motorists safely through the work area. After the switch is completed, signalised traffic control will again operate at both ends of the bridge to alternate the flow of traffic. Please drive carefully and follow the signs. Your cooperation and patience are greatly appreciated during these essential upgrade works.

Key activities will include:

- Line removal and line marking.
- Reconfiguration of concrete barriers.

**The community complaints and information line 1800 196 266 (select option 2)** will be attended day and night during construction. Complaints will be responded to within two hours and investigation of the complaint will proceed at the earliest opportunity. If you have any questions or would like to provide feedback please contact the project team on the 1800 number or email [enquiries@hillsm2upgrade.com.au](mailto:enquiries@hillsm2upgrade.com.au).

Kind regards

Sanjin Muhic

Hills M2 Upgrade Community Relations Manager
