Our Reference: N0149

Dear resident,

Re: Night work scheduled to commence 13 September under Beecroft Road Bridge, Beecroft

The Hills M2 Upgrade will widen the existing motorway between Windsor Road, Baulkham Hills and Lane Cove Road, North Ryde and will deliver four new ramps to improve access to the motorway. The project aims to provide efficient and integrated transport for the community of Sydney's North-West. Major work started in January 2011 and is expected to take approximately two years to complete.

The current work zone on the eastbound shoulder lane west of Beecroft Road Bridge will move to the centre median to allow the motorway widening work to continue. Relocating the work zone involves moving the temporary concrete traffic barriers and realigning the traffic lanes by changing the line markings.

This work will be undertaken at night between 8pm and 5:30am when traffic volumes along the motorway are lower. Please see the map and table over the page for more details.

Machinery and equipment needed for this work includes trucks, a water blaster, a crane, hand tools, lighting towers and light vehicles.

You may experience increased noise levels as a result of the work. The project team will take measures to keep this to a minimum, including:

- Using non-tonal reversing alarms, which make a "quacking" sound instead of a "beeping" sound.
- Shrouding all stationary equipment and using hoarding where possible.

Traffic arrangements

The eastbound lanes on the motorway will be closed while this activity takes place. The westbound lanes will operate under a contra flow arrangement. Please follow the signs and drive with care.

For more information about how we will manage noise, please refer to the Hills M2 Upgrade Noise Management Fact Sheet which is available on the project website www.hillsm2upgrade.com.au.

The community complaints and information line 1800 196 266 (select option 2) will be attended 24 hours per day, 7 days per week during construction. Complaints will be responded to within two hours and investigation of the complaint will proceed at the earliest opportunity. If you have any questions or would like to provide feedback please contact the project team on the 1800 number or email enquiries@hillsm2upgrade.com.au.

Regards

Sanjin Muhic
Hills M2 Upgrade Community Relations Manager

SPEEDING KILLS ROADWORKERS TOO.
Slow down at worksites.
