Dear resident,

Re: Night work to install traffic barriers west of Beecroft Road Bridge, Beecroft

The Hills M2 Upgrade will widen the existing motorway between Windsor Road, Baulkham Hills and Lane Cove Road, North Ryde and will deliver four new ramps to improve access to the motorway. The project aims to provide efficient and integrated transport for the community of Sydney's North-West. Major work started in January 2011 and is expected to take around two years to complete.

Work is currently underway to widen the motorway west of the Beecroft Road Bridge. The existing work area, which is located on the westbound carriage near Barombah Road, will be extended. There will be traffic management and lane closures in place while additional concrete barriers are installed at this work site. Refer to the map over the page.

All westbound lanes will be closed during this night work. Westbound traffic will be diverted to the eastbound carriageway which will operate with one lane in each direction. The hours of work will be from 8pm to 5.30am. Night work will take place on the dates shown over the page.

Key activities will include:

- Traffic management
- Installation of concrete barriers

Machinery and equipment used includes flood lights, generator and delivery trucks. You may experience increased noise levels as a result of this work. We will take measures to keep this to a minimum, including:

- Using non-tonal reversing alarms, which make a "quacking" sound instead of a "beeping" sound.
- Shrouding all stationery equipment and using hoarding where possible.

For further information about how the project team will manage noise, please refer to the *M2 Upgrade Noise Management Fact Sheet* which is available on the project website www.hillsm2upgrade.com.au

The community complaints and information line 1800 196 266 will be attended day and night during construction. Complaints will be responded to within two hours and investigation of the complaint will proceed at the earliest opportunity. If you have any questions or would like to provide feedback please contact the project team on the 1800 number or email enquiries@hillsm2upgrade.com.au.

Kind regards

Sanjin Muhic

Hills M2 Upgrade Community Relations Manager

Hills M2 Upgrade
breakdown safety

In the case of breakdown:

- Stay in your vehicle
- Switch on your hazard lights
- Call **1800 196 266**
- Wait for assistance
