

3 March 2011

Our reference: Windsor road compound\_AN\_I

Dear resident,

**Re: Windsor Road compound establishment**

The Hills M2 Upgrade will widen the existing motorway generally between Windsor Road, Baulkham Hills and Lane Cove Road, North Ryde and will deliver four new ramps to improve access to the motorway. The project aims to provide efficient and integrated transport for the community of Sydney's North-West.

Major work started in January 2011 and is expected to take around two years to complete.

Work at the Windsor Road compound is due to start Thursday 10 March (see map on following page).

Work to set the site up will occur during standard construction hour from 7am to 6pm, Monday to Friday and from 8am to 1pm, Saturday and take around 8 weeks.

Set up activities will include:

- Erecting a safety fence around the site.
- Installing erosion and sediment controls around the site.
- Minor clearing and earthworks to level the site.
- Installing lights.
- Setting up temporary office buildings.
- Installation of traffic and pedestrian management (see map for details).

Once established, the compound will operate 24 hours a day for until the project is finished.

The compound will include equipment and material storage, site offices, amenities and staff parking. The entrance to the site office will be from Torrs Street, Baulkham Hills. This site will also be used as an access point for construction on the motorway.

There will be no changes to the Torrs Street bus stop off Windsor Road or the commuter car park.

**The community information line 1800 196 266** will be attended during the day and night during construction. Complaints received via the 1800 number will be responded to within two hours and investigation of the complaint will proceed at the earliest opportunity.

If you have any questions please contact the project team on 1800 196 266 or email [enquiries@hillsm2upgrade.com.au](mailto:enquiries@hillsm2upgrade.com.au).

Kind regards

Sanjin Muhic
