

Hills M2 Upgrade

27 June 2011

Our Reference: N0124

Dear resident,

Re: Night work to deliver and install bridge beams at Windsor Road Bridge, Baulkham Hills commencing 4 July

The Hills M2 Upgrade will widen the existing motorway between Windsor Road, Baulkham Hills and Lane Cove Road, North Ryde and will deliver four new ramps to improve access to the motorway. The project aims to provide efficient and integrated transport for the community of Sydney's North-West. Major work started in January 2011 and is expected to take approximately two years to complete.

As part of the Windsor Road Bridge widening, concrete beams will be erected over the westbound and eastbound carriageways of the motorway. Due to the high volume of traffic during the day this work will be undertaken at night from 8pm to 5.30am. Installation of the beams will be undertaken in blocks of two nights and is scheduled to take place on the dates shown over the page, weather permitting.

Machinery and equipment used will include a large 300 tonne crane, semi trailers, lighting towers and hand tools. You may experience increased noise levels as a result of the work. The project team will take measures to keep this to a minimum, including:

- Using non-tonal reversing alarms, which make a "quacking" sound instead of a "beeping" sound.
- Shrouding all stationary equipment and using hoarding where possible.

Traffic management and partial motorway lane closures

One carriageway of the motorway will be closed during the delivery and installation of the beams. Traffic will be diverted to the opposite carriageway under a contra flow arrangement, see over for further details. Please follow the signs and directions of traffic controllers and drive with care.

For more information about how we will manage noise, please refer to the M2 Upgrade Noise Management Fact Sheet which is available on the project website www.hillsm2upgrade.com.au.

The community complaints and information line 1800 196 266 will be attended 24 hours per day, 7 days per week during construction. Complaints will be responded to within two hours and investigation of the complaint will proceed at the earliest opportunity.

If you have any questions or would like to provide feedback please contact the project team on the 1800 number or email enquiries@hillsm2upgrade.com.au.

Regards

Sanjin Muhic

Hills M2 Upgrade Community Relations Manager
